FOUR RECENT IMPORTANT LAW BOOKS

(For Sale by all Law Booksellers)

Williston's Wald's Pollock on Contracts

Third American from the Seventh English Edition. By SAMUEL WILLISTON, Professor of Law in Harvard University.

In one large, compactly printed Volume of 1,139 pages.

Price, \$6.00 net, or \$6.40 delivered.

Professor Williston's large additions to the text and notes in this edition **have made the work a complete and thorough treatise on Contracts for American Lawyers and Students.**

"It is well within the bounds of truth to say that in no other work is so much accurate information on the general principles of Contracts to be found." *Harvard Law Review.*

One of the many striking features of this work is the simplicity of the language used; another the clearness of expression of its authors. Few works equal Williston's Wald's Pollock in fullness of discussion; and in careful analysis, lucid and exact definition and philosophical development of doctrine, it is probably without a peer." *Central Law Journal.*

No American treatise on the law of Contracts has been written by such eminent authorities on the subject as those whose names are connected with this work as authors.

The Most Practical and Useful Work on the Subject.

Clement on Fire Insurance. 2 Vols.

Vol. I. As a Valid Contract in the Event of Fire and Adjustment of Claims thereunder.

Vol. II. As a Void Contract, and in both volumes the conditions of the Contracts as affected by Construction, Waiver, and Estoppel. Including Miscellaneous Provisions and Analysis and Comparison of the Various Standard Forms. **All reduced to Rules.** With the Relevant Statutory Provisions of all the States. By GEORGE A. CLEMENT. **Price, 2 Vols., \$12.00 net, or \$12.60 delivered.**

Alderson on Receivers

A Practical and Comprehensive Treatise on the Law of Receivers, as applicable to Individuals, Partnerships, and Corporations, with extended considerations of Receivers of Railways and in Proceedings in Bankruptcy. By WILLIAM A. ALDERSON. 1 vol., 8 vo. Price, \$6.00.

This work constitutes an exhaustive presentation of every feature of the Law of Receivers, and *contains more matter, more cases, and a greater number of topics* than any other book upon the subject. Every step in, and incident to, a receivership proceeding, from the drafting of the petition to the end of the litigation, is considered, and *no feature has been omitted or slighted.*

Wolfe's Inheritance Tax Calculation

An Explanation of the Underlying Principles with Tables and Instructions for Ascertaining the Present Value of Dower and Courtesy Rights. Life Estates, Annuities, Vested and Contingent Remainders upon the Northampton, Carlisle, American, and Actuaries' Experience Tables of Mortality at Various Rates of Interest, with a Brief Analysis of the Inheritance Tax Laws of the Various States and Territories. By S. HERBERT WOLFE, F. S. S., Consulting Actuary, New York City. 1 vol., 8vo. Law canvass binding. Price, \$4.50.

The growing importance of the inheritance tax laws of the various States in the Union, and the absence of text-books suitable to the needs of the practicing lawyer, will cause this book to be welcomed by the legal profession generally, and particularly by every Judge before whom probate cases come, and all practitioners in probate and Surrogates' Court.

The Truly Wise Man

The truly wise man is usually *he who profits by another man's experience*. Such a man starts everything he undertakes with a long handicap over his fellows.

If you should ask any experienced lawyer, "What is the most valuable set of law-books published in the last twenty years?" the chances are a hundred to one he would say, without hesitation, "The Lawyers' Reports Annotated." Ask him.

Many an older and wiser lawyer has in the last few years expressed great regret that he did not realize the coming value of "L. R. A." when it was begun eighteen years ago, as by subscribing then he would have avoided the burden of purchasing a large number of back volumes at once.

We are now beginning a New Series, following Volume 70 First Series, containing 75 per cent more matter each year than formerly, and with every case annotated—at the same time a reduction of \$1.00 per volume in price.

If *you* are wise you will enter your subscription at once to Lawyers' Reports Annotated, New Series, only \$4.00 per volume. It is an opportunity which has not come before in nearly twenty years—to start on such a set with no expense for back volumes—and may never come again.

When you get ready you can put in L. R. A. 1-70 First Series. In the meantime have the value of current volumes and don't get behind.

Sample page and further descriptive matter sent on request. Also send for our 200 page topical index of text work, "Where to Look for the Law."

TRIAL TACTICS

A Treatment of the Methods of Conducting Litigation

BY ANDREW J. HIRSCHL,
OF THE CHICAGO BAR

"DEAR SIR:—The book of Mr. Andrew J. Hirschl on 'TRIAL TACTICS' fills as far as I know a distinct niche in legal literature.

Every law suit may be aptly compared to a drama in real life. This book gives a peep behind the scenes.

Every law suit may also be aptly compared to a battle. This book gives a view of the *generalship on each side*, conducted by the respective lawyers, and of the *tactics by which battles are won and lost*.

It is interesting to the general reader, and it is useful to all lawyers, but especially to the student and young practitioner, for in this book Mr. Hirschl has distilled the essence of a wide, varied and active practice of nearly thirty years."

Very truly yours,

(HON.) JOHN F. DILLON.
